

O Reilly **Oakstown** Environmental MOVEABLE RETAINING CONCRETE L WALLS

Oakstown | Trim | Co. Meath |

[3D RENDER]
[SIDE PROFILE L WALLS]

O Reilly Oakstown Environmental Concrete Products for Environmental Protection and Enhancement.

Moveable, concrete retaining L walls have a wide range of uses for all levels of industry and civil works. Their flexibility and diversity make them an attractive alternative to standard fixed walls.

The stand alone L wall is suitable for the following scenarios:

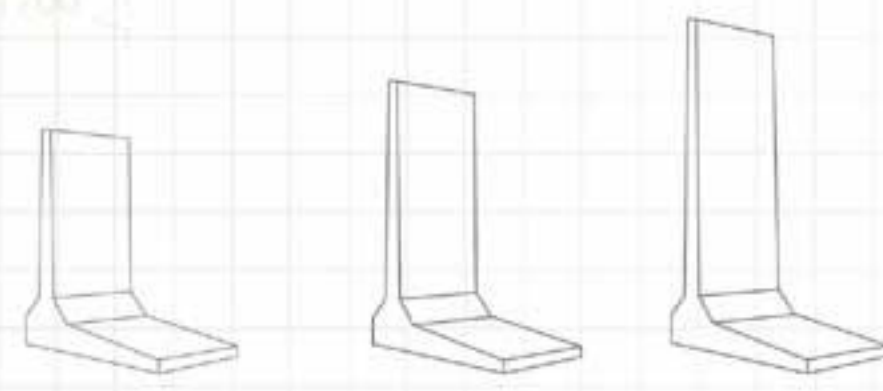

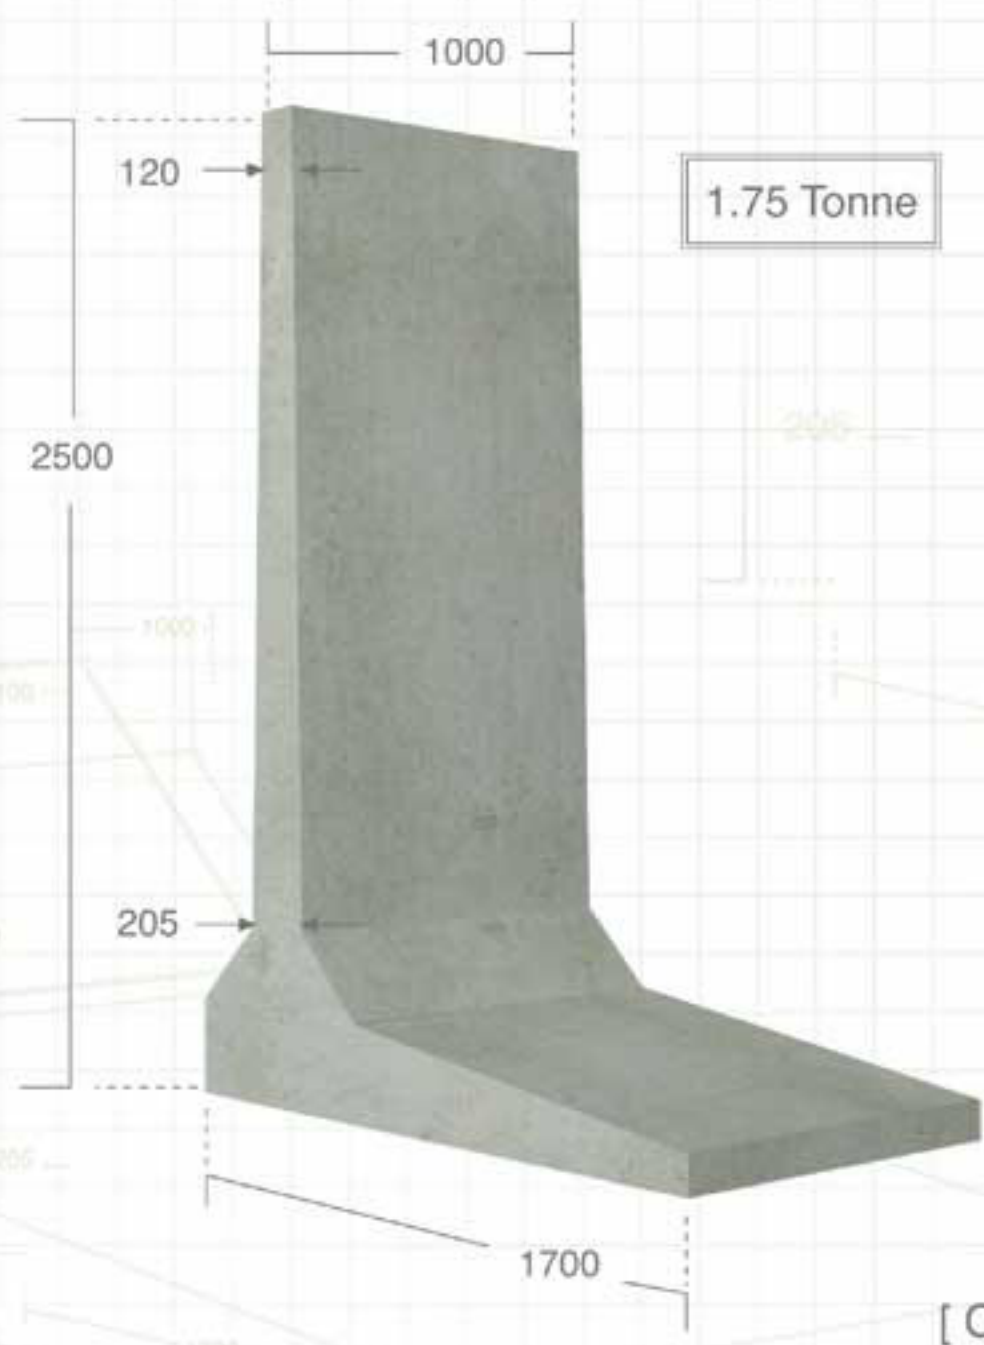

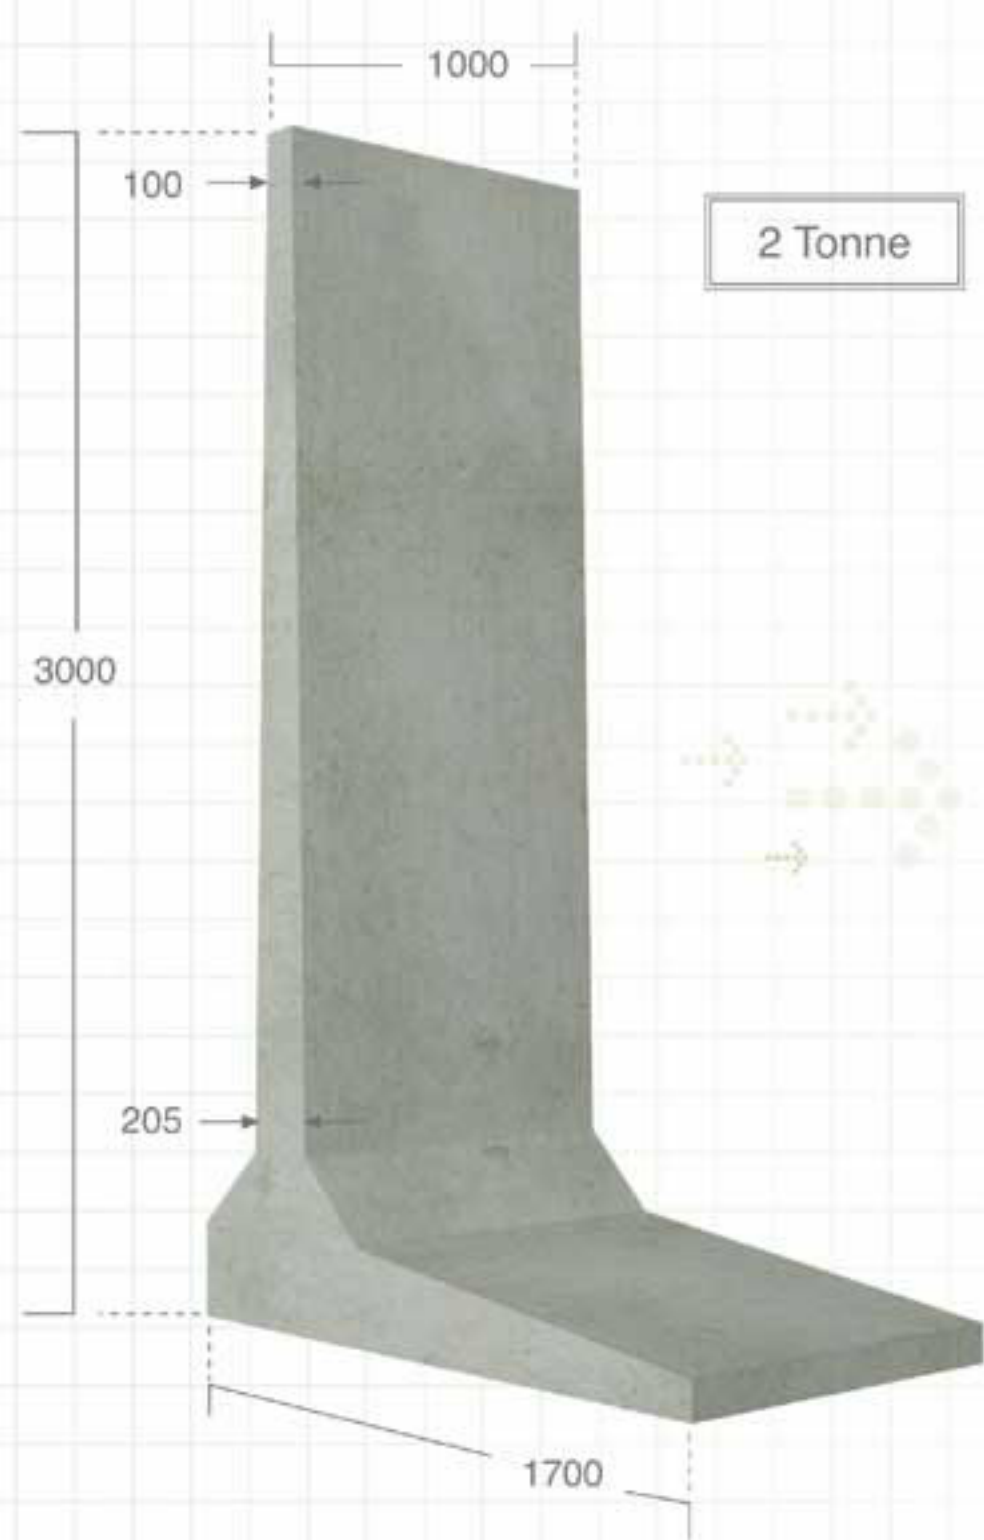

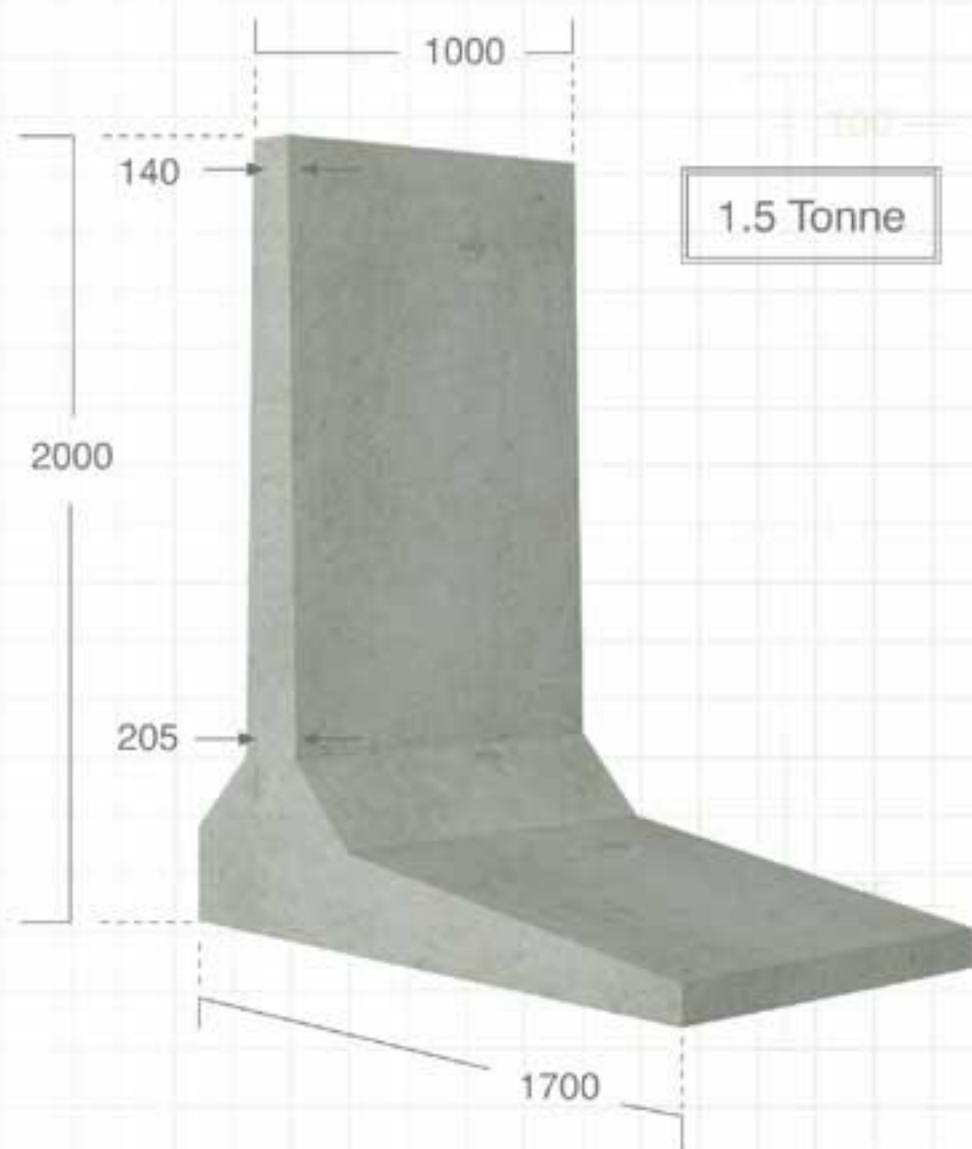

- | | |
|----------------------------------|--|
| Silage walls | Storage of compost |
| Storage of agricultural products | Split level driveways/gardens |
| Retention of soil banks | Storage of building materials i.e. sand, stone |
| Storage of recyclables | Back-fill support |

Other products from the O Reilly Oakstown Environmental product range include:

- | | |
|------------------------------------|-------------------------|
| Oil Water Separators | Water Attenuation Tanks |
| Commercial Sewage Treatment Plants | Septic Tanks |
| BAF Sewage Treatment Systems | Corner L Walls |
